

Set user details

You can add multiple users at once with the same access type and permissions. [Learn more](#)

User name*

[Add another user](#)

Select AWS access type

Select how these users will access AWS. Access keys and autogenerated passwords are provided in the last step. [Learn more](#)

- Access type***
- ☒ **Programmatic access**
Enables an **access key ID** and **secret access key** for the AWS API, CLI, SDK, and other development tools.
 - ☒ **AWS Management Console access**
Enables a **password** that allows users to sign-in to the AWS Management Console.

- Console password***
- ☐ Autogenerated password
 - ☒ Custom password

☐ Show password

- Require password reset** ☒ User must create a new password at next sign-in
Users automatically get the [IAMUserChangePassword](#) policy to allow them to change their own password.

Success

You successfully created the users shown below. You can view and download user security credentials. You can also email users instructions for signing in to the AWS Management Console. This is the last time these credentials will be available to download. However, you can create new credentials at any time.

Users with AWS Management Console access can sign-in at: <https://825592371974.signin.aws.amazon.com/console>

Download .csv

aws machine learning

The banner features a green-to-yellow gradient background. On the left, there is a white line-art illustration of a chemistry flask with bubbles rising from it. A stream of white dots flows from the flask towards the right, forming a wave-like pattern. The AWS logo and the text 'machine learning' are in the bottom right corner.
